### Executive Elite - Accessories

Model	Description
02-4BATHDCHG-C	<p>HD 4-Channel Charger Base with (4) HD/FLX Battery Charger Adapters</p> <p>The latest generation of Revolabs products allows users to easily replace batteries in the field. They can open the back of the microphone, take out the previous battery, and replace it with a new one. With the battery charger adapter users are able to charge spare batteries for HD and FLX products. This allows users to have charged batteries on hand for those cases that go beyond the time of one battery.</p>

### Service and Support - Microphone Upgrades

Revolabs V3 (Field Replaceable Battery) Microphones

As of June 13, 2012, all Revolabs microphones will be shipped as V3 microphones, with field replaceable batteries.

Clients may choose to upgrade to the V3 mics from previous mic versions. Charging stations do not need to be upgraded but with HD systems you need to upgrade to the latest version of HD firmware (at least v 2.6.11 or higher).

NOTE: Microphones whose serial number starts with a 7010 or 8010 are already field replaceable versions. All microphones whose serial numbers start with 5010 or 6010 are not field replaceable and should not be opened by the customer under any circumstances. These models can be upgraded to allow for future field replacements
